Forecast for Friday 15 Nov 2024

Weather: Isolated patches of mist and fog in valleys during the morning, clearing to some brighter spells, especially in the east of the Park. Cloud gradually thickens from the northwest during the afternoon, with some light patchy rain arriving in the evening.

Chance of cloud-free hill tops above 800m: 70% becoming 20% from the northwest during the late afternoon.

Low Cloud and visibility: Very poor visibilities in valley fog becoming very good for all. Broken cloud covering hills above 400-500m builds from the northwest during the afternoon, with best of the sunshine remaining in the southeast.
